# Game title : Code Runner

20191162 최서윤
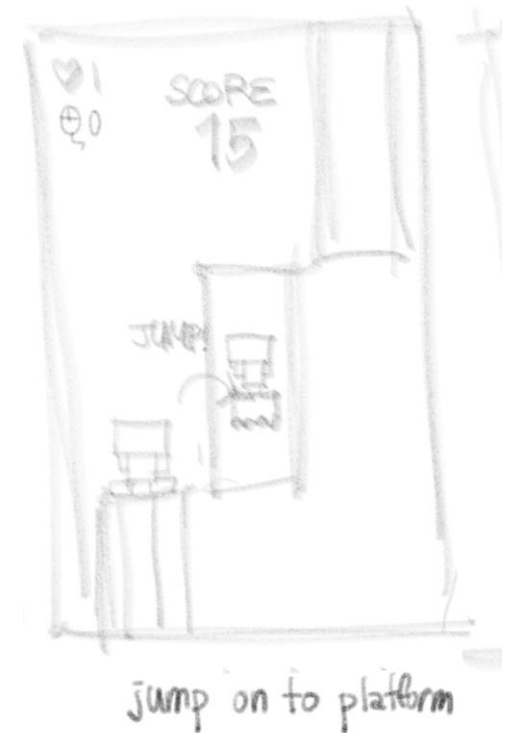

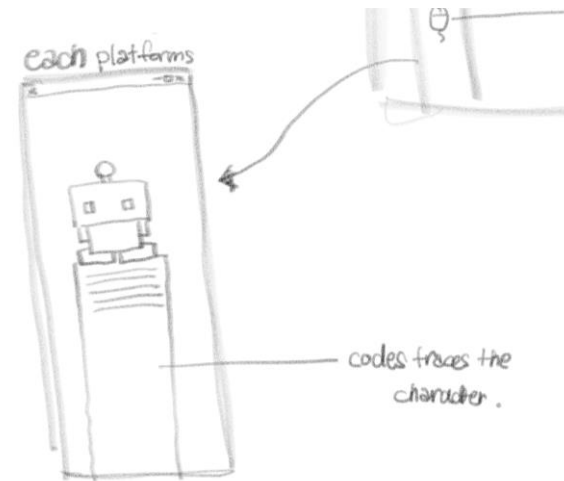

Code Runner

- vertical platformer jumping game
- Idea sketch :

How it works

- Starts moving up automatically as the game starts.
- Player has to jump on to the platforms(windows)
- The speed gets faster as the game goes on

each platforms

codes traces the character.

SCORE
15

JUMP!

jump on to platform

How it works

- Game Over if:
- 1) meet bug (enemy)
- 2) player falls down from the platform
(fails to jump onto next platform)

Game Over 1:
meet bug
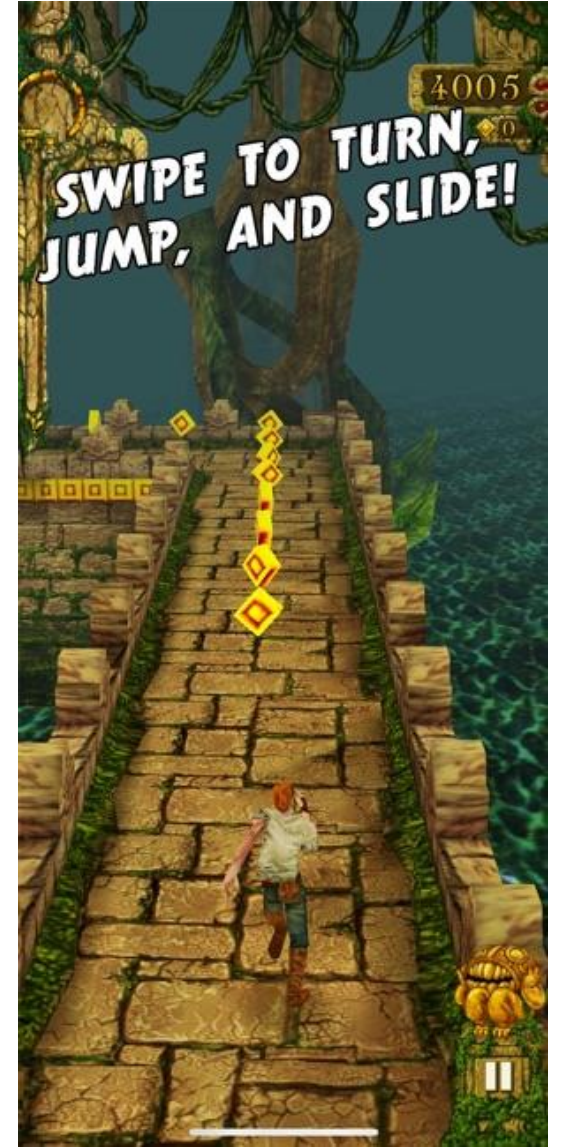

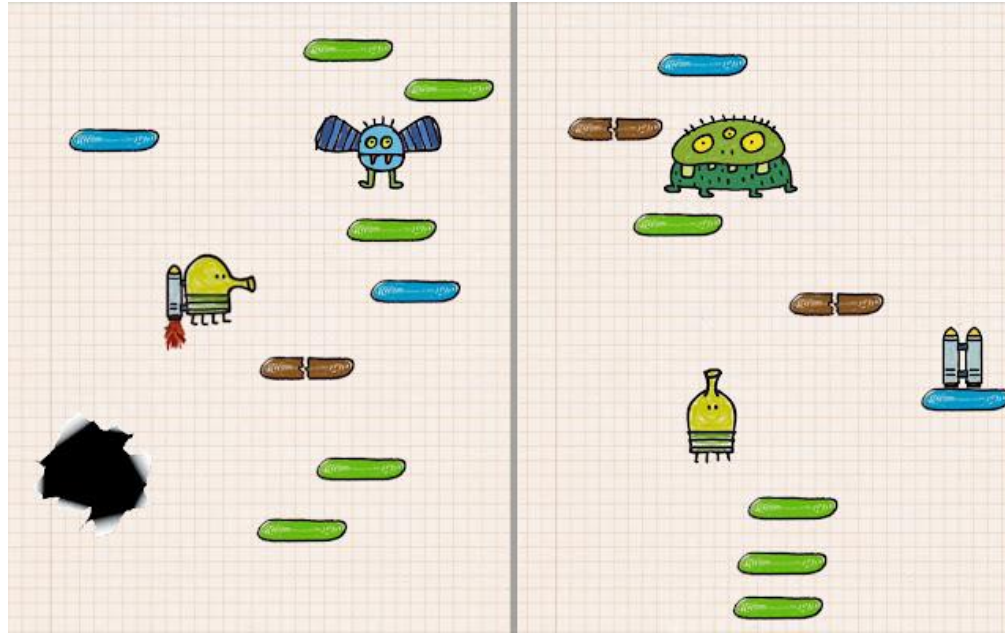

Game Over 2:
fall down from platform

How it works

- Score = game time(since the player move it automatic) + additional score if bug is killed
- Items:
- 1) life : player can get additional life
- 2) mouse : player can use to kill bug

Game reference

Visual style

- 8 bit simple, arcade style, cute
- Example references
